GULF PAYMENTS

Design and Brand
Guideline - Short Version

March 2023

Introduction

These guidelines describe the visual and verbal elements that represent (GPC) Gulf Payment Company corporate identity. This includes our name, logo and other elements such as color, type and graphics.

Sending a consistent and controlled message of who we are is essential to presenting a strong, unified image of our company.

These guidelines reflect (GPC) Gulf Payment Company commitment to quality, consistency and style. The (GPC) Gulf Payment Company brand, including the logo, name, colors and identifying elements, are valuable company assets.

Each of us is responsible for protecting the company's interests by preventing unauthorized or incorrect use of the (GPC) Gulf Payment Company name and marks.

Our Logo is the key building block of our identity, the primary visual element that identifies us. The signature is a combination of the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

The Full Logo

The (GPC) Gulf Payment Company Masterbrand or Corporate Logo comprises two elements, the logo symbol and logo type. The Logo Symbol is a lines that shows the architecture design.

It has a particular relationship with the (GPC) Gulf Payment Company name.

The Logo Type has been carefully chosen for its modern and yet refined, highly legible style, which has been further enhanced by the use of upper case letters. The typeface is illustrated carefully and has also been chosen to compliment and balance perfectly as a logo symbol.

The corporate logo is presented through the use of colour as well as shape and form. The corporate color is Black. It is a elegant and professional and looks stunning.

The Color has been selected according to international standards as shown below and are easily implemented.

1) Main Logo

The main logo is the colored logo used on white or colored background.

2-4) Main Logo

For darker backgrounds you will find an alternative below.

Typography

Typographic hierarchy is another form of visual hierarchy, a sub-hierarchy per se in an overall design project. Typographic hierarchy presents lettering so that the most important words are displayed with the most impact so users can scan text for key information.

Typographic hierarchy creates contrast between elements. There are a variety of ways you can create a sense of hierarchy. Here are some of the most common techniques for (GPC) Gulf Payment Company layouts.
